Organic White Kernel Virgin Coconut Oil

Organic White Kernel Virgin Coconut Oil is produced from fresh, air-dried white coconut kernel with the testa or parings removed. The dried kernel is mechanically expeller-pressed and the oil is mechanically filtered without refining, bleaching or deodorisation, retaining its characteristic natural coconut flavour and aroma.

Applications:

Cooking · *Baking* · *Direct Consumption* · *Food Products* · *Cosmetics* · *Personal-Care Formulations*

Available Packaging:

Glass: 14 oz, 30 oz, 500 ml, 1 L · PET: 500 ml, 1 L, 1.5 L · Bulk: 20 L, 210 L, 1,000 L IBC, Flexitank

Whole Kernel Organic Virgin Coconut Oil

Organic Whole Kernel Virgin Coconut Oil is produced from fresh, air-dried whole coconut kernel, including the natural brown testa or parings. The dried kernel is mechanically expeller-pressed and the oil is produced without refining, bleaching or deodorisation, retaining its distinctive natural coconut flavour and aroma.

Applications:

Cooking · *Baking* · *Direct Consumption* · *Food Products* · *Cosmetics* · *Personal-Care Formulations*

Available Packaging:

Glass: 14 oz, 30 oz, 500 ml, 1 L · PET: 500 ml, 1 L, 1.5 L · Bulk: 20 L, 210 L, 1,000 L IBC, Flexitank

Organic Coconut Milk

Coconut Milk is a homogeneous liquid emulsion extracted by mechanically pressing fresh, mature and healthy coconut kernels (Cocos nucifera). The extracted coconut milk is standardised with potable water to achieve the required fat content. The final product is packed in hermetically sealed, BPA-NI metal cans and sterilised to achieve commercial sterility and shelf stability.

Applications:

Soups · *Beverages* · *Bakery products* · *Curries* · *Desserts* · *Sauces* · *Dairy alternatives*

Available Packaging:

200 ml & 400 ml cans · 20 L Bag-in-Box · 200 L aseptic drums

Coconut Cream is produced from carefully selected, mature white coconut kernels (Cocos nucifera). It has a thicker consistency than coconut milk, with a fat content of 24%, and is suitable for catering or use as a food ingredient.

Organic Coconut Cream

Applications:

Soups · *Beverages* · *Bakery products* · *Curries* · *Desserts* · *Sauces* · *Food-service applications*

Available Packaging:

200 ml & 400 ml cans · 20 L Bag-in-Box · 200 L aseptic drums

Organic Coconut Water

Coconut Water is hygienically extracted from carefully selected coconuts, filtered and heat-treated before being packed in aseptic bags using UHT technology. With its characteristic fresh coconut taste, it is suitable as a single-strength beverage, for juice blends or as an ingredient in beverage manufacturing.

Applications:

Direct Consumption · *Sports Beverages* · *Smoothies* · *Beverage Manufacturing* · *Juice Blends*

Available Packaging:

20 L Bag-in-Box · 200 L aseptic drums

Organic Creamed Coconut, also known as Coconut Butter, is a smooth paste made from organically produced desiccated coconut. The desiccated coconut is finely ground to create a smooth, homogeneous paste with a rich, characteristic coconut flavour and aroma. It is suitable for a wide range of food and beverage applications.

Organic Coconut Butter

Applications:

Spreads · *Bakery products* · *Confectionery* · *Plant-based food applications* · *Sauces* · *Fillings* · *Desserts*

Available Packaging:

Glass/PET: 200 ml, 300 ml, 500 ml, 1 L, 1.5 L · Bulk: 5 L & 20 L PP buckets

Organic White Kernel Coconut Flour

Organic White Kernel Coconut Flour is produced from carefully selected organic white coconut kernels. Following the extraction of virgin coconut oil, the resulting seedcake is ground and sieved to produce a fine, uniform flour with a mild coconut aroma, delicate flavour and fine texture.

Applications:

Bakery products · *Beverages* · *Sauces* · *Desserts* · *Plant-based food applications.*

Available Packaging:

500 g & 1 kg pouches · 20 kg & 25 kg bulk bags

Whole Kernel Organic Coconut Flour

Organic Whole Kernel Coconut Flour is produced from carefully selected organic whole coconut kernels. Following the extraction of virgin coconut oil, the resulting seedcake is ground and sieved to produce a fine, uniform flour with a mild coconut aroma, delicate flavour and fine texture.

Applications:

Bakery products · *Desserts* · *Smoothies* · *Coatings* · *Plant-based food applications.*

Available Packaging:

500 g & 1 kg pouches · 20 kg & 25 kg bulk bags

RBD Coconut Oil

Coconut oil or copra oil is an edible oil extracted from the kernel or meat of mature coconuts harvested from the coconut palm (Cocos nucifera). The oil is purified by filtering, bleaching and deodorizing at high temperatures to remove microorganisms and other contaminants.

Applications:

Cooking · *Confectionery* · *Baking* · *Frying* · *Food Manufacturing*

Available Packaging:

4 L, 10 L, 20 L · 200 L · 1,000 L

Organic Coconut Milk Powder

Organic Coconut Milk Powder is produced from coconut milk extracted from freshly selected, mature organic coconut kernels (Cocos nucifera). The coconut milk is filtered, concentrated and spray-dried under controlled conditions to produce a fine, water-soluble powder with the characteristic flavour and aroma of coconut. It is suitable for a variety of food and beverage applications.

Applications:

Beverages · *Bakery products* · *Confectionery* · *Curries* · *Sauces* · *Instant food formulations* · *Soups*

Available Packaging:

Retail pouches · 20 kg & 25 kg bulk bags

Organic Coconut Sugar

Organic Coconut Sugar is a natural, unrefined sweetener produced from the sap of the coconut palm (Cocos nucifera). The fresh coconut palm sap is filtered, heated and evaporated to concentrate its natural sugars before being crystallised and sieved. It has a characteristic sweet taste with a subtle caramel undertone and is suitable for a variety of food and beverage applications.

Applications:

Beverages · *Bakery products* · *Confectionery* · *Desserts* · *Sauces*

Available Packaging:

500 g & 1 kg pouches · 20 kg bulk bags

Organic Coconut Treacle

Organic Coconut Treacle is a natural sweetener produced from coconut sap extracted from coconut blossoms. The sap is filtered, heated and evaporated to produce a concentrated treacle, which is then filtered before packing. It is a naturally derived alternative to refined or processed sweeteners and honey.

Applications:

Beverages · *Bakery products* · *Marinades* · *Desserts* · *Sauces* · *Drizzles* · *Toppings*

Available Packaging:

200–1,500 ml glass jars · 5 L, 10 L & 20 L bulk

Organic Medium Desiccated Coconut

Desiccated Coconut Medium is produced from the white kernel of mature coconuts (Cocos nucifera). The coconut kernel is finely grated and dried under hygienic conditions and classified as medium grade according to particle size distribution. It is suitable for use as a food ingredient.

Applications:

Fillings and Coatings | *Bakery products* | *Confectionery* | *Cereals* | *Snacks* | *Desserts*

Available Packaging:

25 kg & 50 kg bags

Organic Fine Desiccated Coconut

Desiccated Coconut Fine is produced from the white kernel of mature coconuts (Cocos nucifera). The coconut kernel is finely grated and dried under hygienic conditions and classified as fine grade according to particle size distribution. It is suitable for use as a food ingredient.

Applications:

Fillings and Coatings | *Bakery products* | *Confectionery* | *Cereals* | *Snacks* | *Desserts*

Available Packaging:

25 kg & 50 kg bags

Organic Coconut Chips

Coconut Chips are produced from freshly selected, mature coconuts (Cocos nucifera). The white coconut kernel is sliced into chip-sized pieces and dried under controlled conditions to produce naturally crunchy chips with the characteristic coconut flavour, aroma and texture. They are made from 100% coconut meat without added artificial colours, flavours or preservatives.

Applications:

Snacks | *Granola* | *Cereals* | *Bakery products* | *Confectionery* | *Savoury Applications*

Available Packaging:

250 g–9 kg packs
